

**To Whom it may concern**

**Reference for Viktoria Moulara:**

My wife and I would like to offer this written reference for Viktoria Moulara who took care of our baby boy from the age of 3 months old from January 2024 to November 2024.

Viktoria was recommended to us by close family friends with whom she had worked. Upon her commencement with us we found her to be a polite and professional person who understood and respected our family needs. We found her to be a discreet, polite and extremely hardworking professional who was warm and caring with our young baby boy and easy to live with. She also engaged warmly with our older daughter in our home and encouraged her to welcome her baby brother into the world.

Viktoria was collaborative and forthright in managing care for our baby boy. She was extremely focussed on hygiene and, for example, would clean the baby's nursery and the kitchen area very regularly herself even though we have a regular cleaning lady. She was also extremely observant regarding all aspects of sleep, nutrition, educational development and play for our son. She was joyful and energetic despite working long hours. She built a very close bond with our son. She would entertain him with music, toys, and stimulating conversation so that he developed extremely well, for example with word/image association and standing up. Our baby was constantly happy and clearly satisfied in her company; we were reassured that Viktoria only had the best interests of the child at heart.

Viktoria helped to ensure that our baby had an excellent sleep schedule, and this alleviated a lot of potential strain on the family. She was extremely focussed on routine in all areas of childcare and as a result our son was always well-rested and joyful. Her patient dedication showed clear results and made our son extremely happy and content. Viktoria was clearly experienced in packing and travelling with children and made the whole experience much easier for us.

Based on our experience, we extended Viktoria's work with us for a period far beyond that which we originally intended. We would not hesitate in recommending Viktoria Moulara to whoever is seeking an experienced, trustworthy, gentle and dedicated maternity nurse and would be happy to discuss our experience with others who are considering working with her.

Hon. Edward Haughey
